

# South Carolina students can be a part of the next generation of aerospace leaders at Boeing!

Students in grades 5-12 in school districts throughout South Carolina are invited to participate.

The program takes place in our Tour Balcony overlooking the production floor of the 787 Final Assembly building and includes the following:

- An understanding of what we do at Boeing South Carolina.
- An introduction to the 787 Dreamliner and aerodynamics.
- A visual tour of the 787 production process.
- Paper Airplane Building activity.

The DreamLearners program and paper airplane building activity covers approved, grade-appropriate academic standards in Math and Science.

## About The Program

The mission of the DreamLearners program is to enhance student and teacher awareness of Boeing South Carolina through experiential learning and exposure to business and industry, inspiring the next generation of Boeing South Carolina teammates.
